

FAST CONNECTORS

Fast Connectors make fibre terminations quick, easy & reliable. These fibre optic connectors offer terminations without any hassles & require no epoxy, no polishing, no splicing, no heating & can achieve similar excellent transmission parameters as standard polishing and splicing technology. Our connector can greatly reduce the assembly & set up time. The pre-polished connectors are mainly applied to FTTH cable in FTTH projects, directly in the end user site.

Features:

- *High return loss (low amounts of reflection at the interface)*
- *Low environmental sensitivity*
- *Low cost & Reliability*
- *Ease of installation*
- *Low insertion loss*
- *Ease of use*

Application:

CATV & FTTH

Telecommunication
networks

Local area networks (LAN)

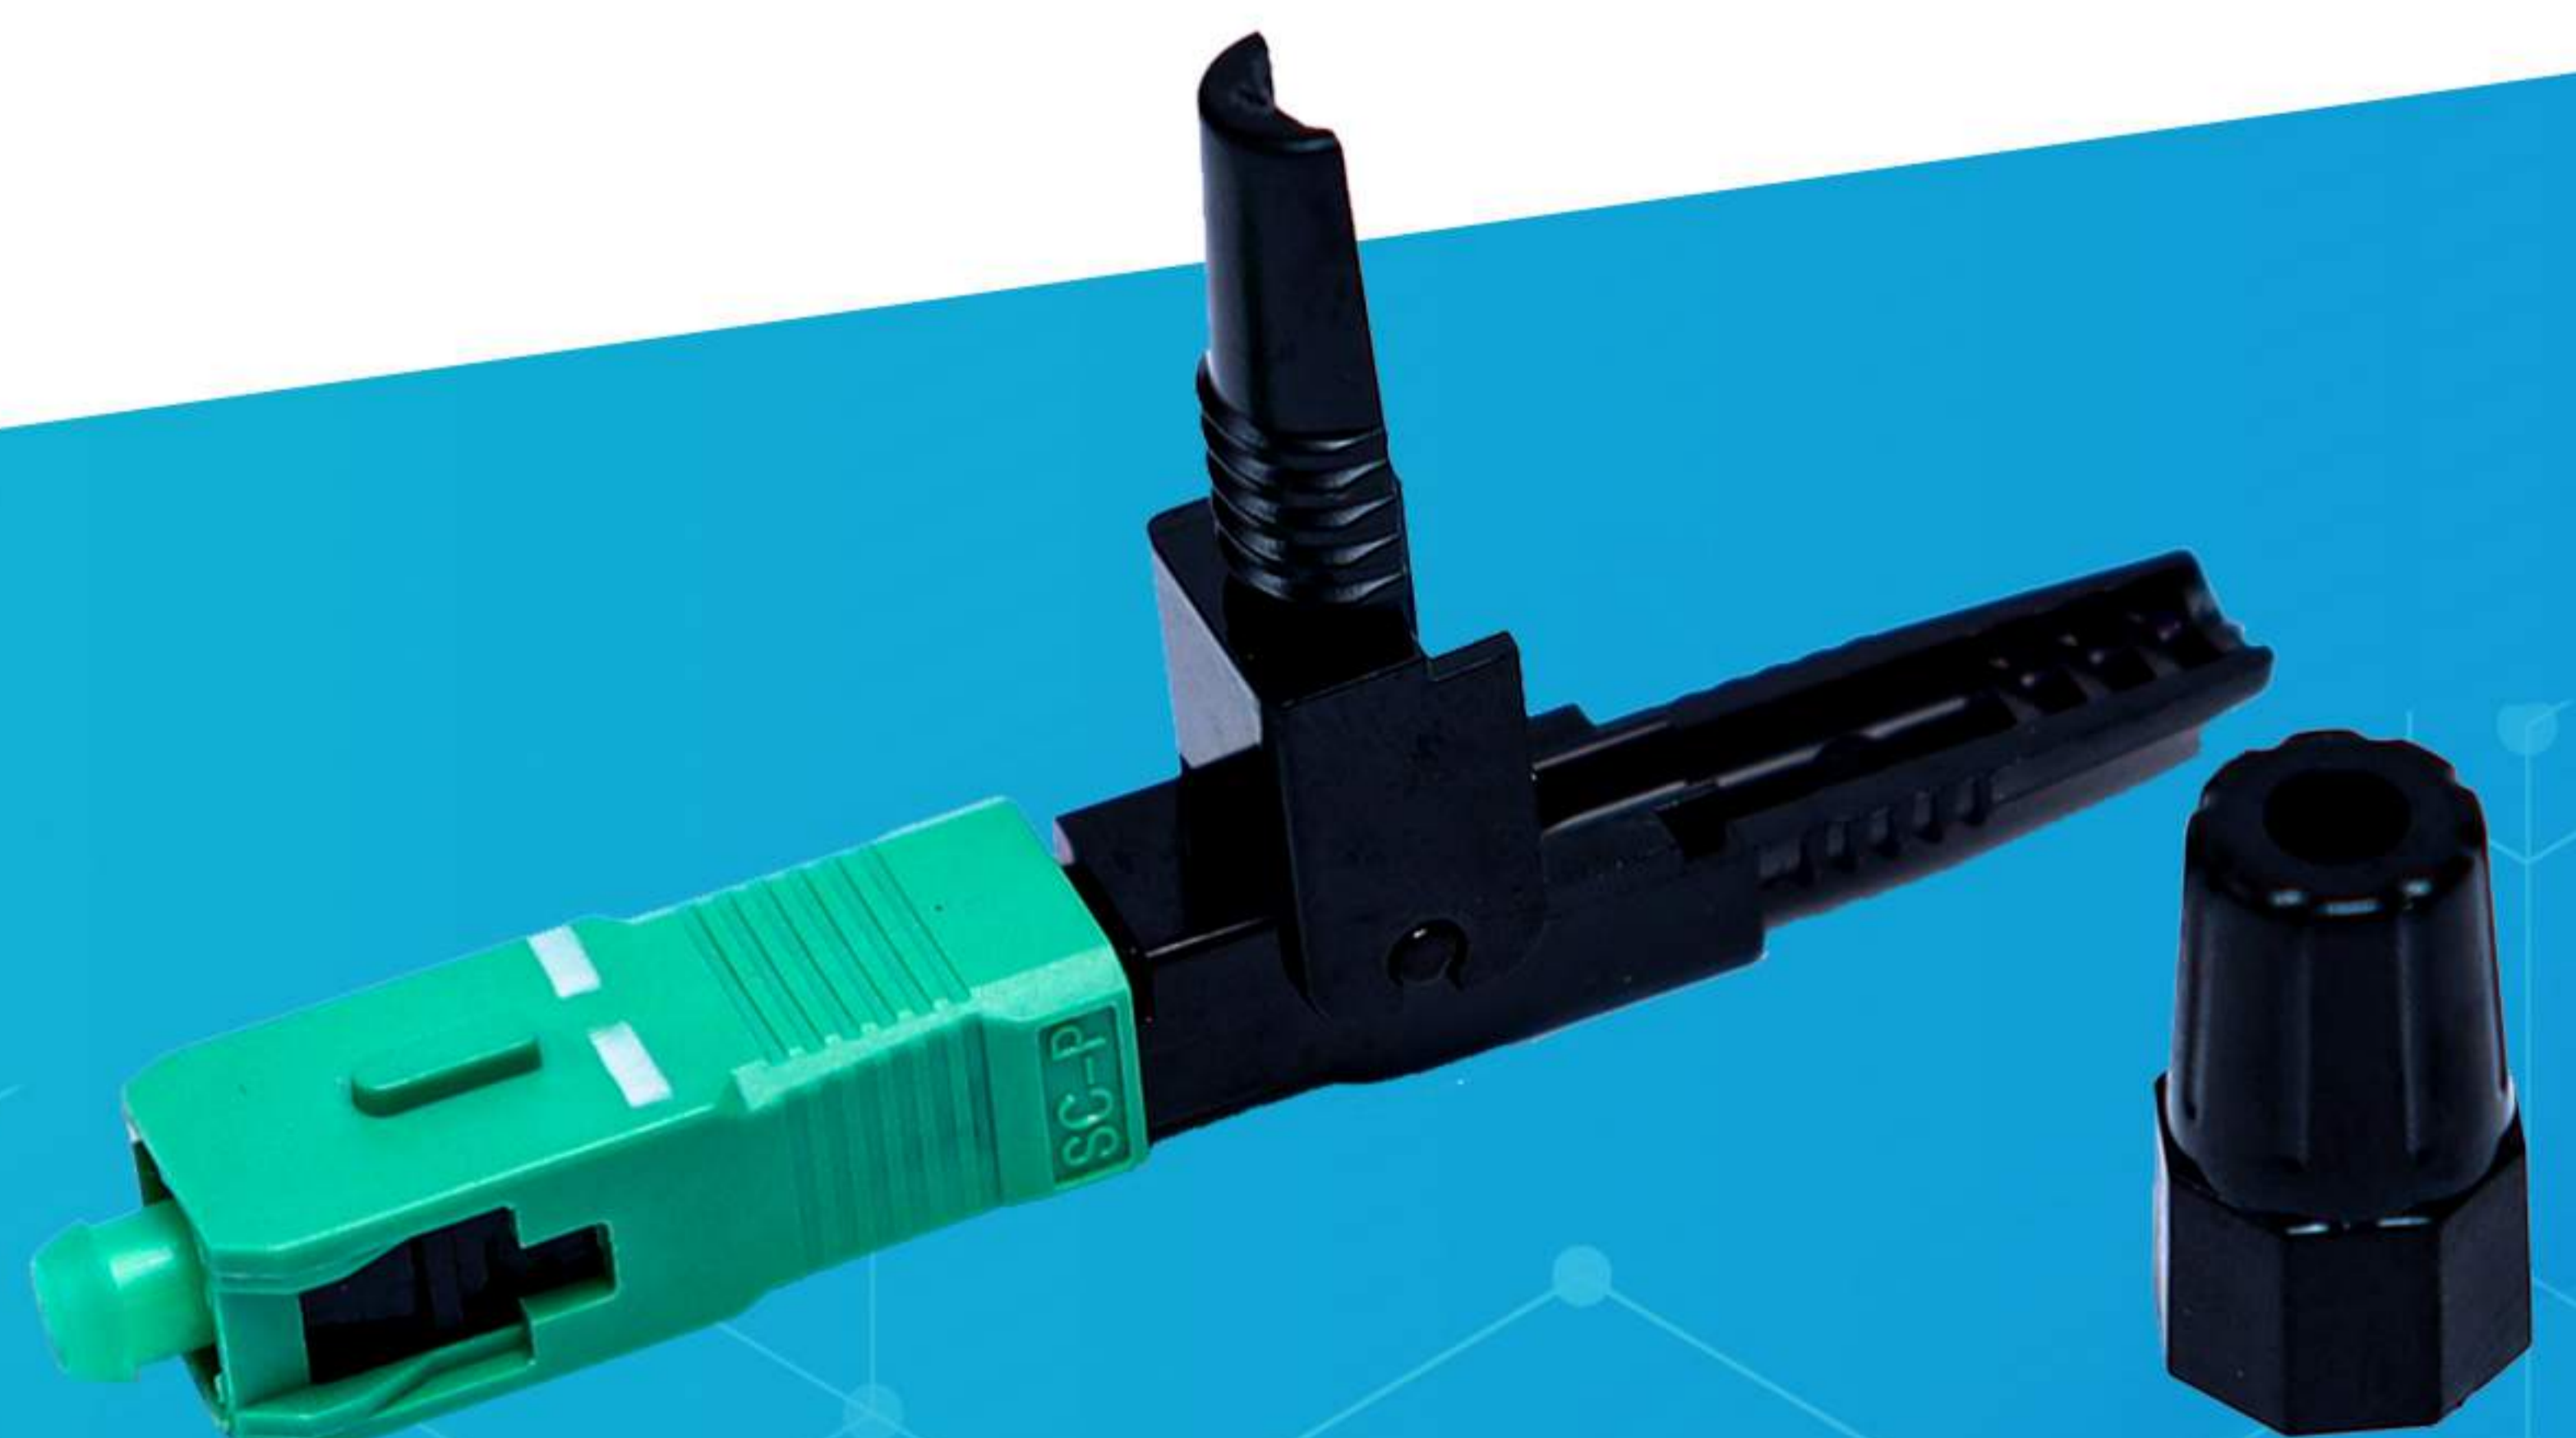

Premise installations

Data processing networks

Video & military active
device termination

Wide area networks (WAN)

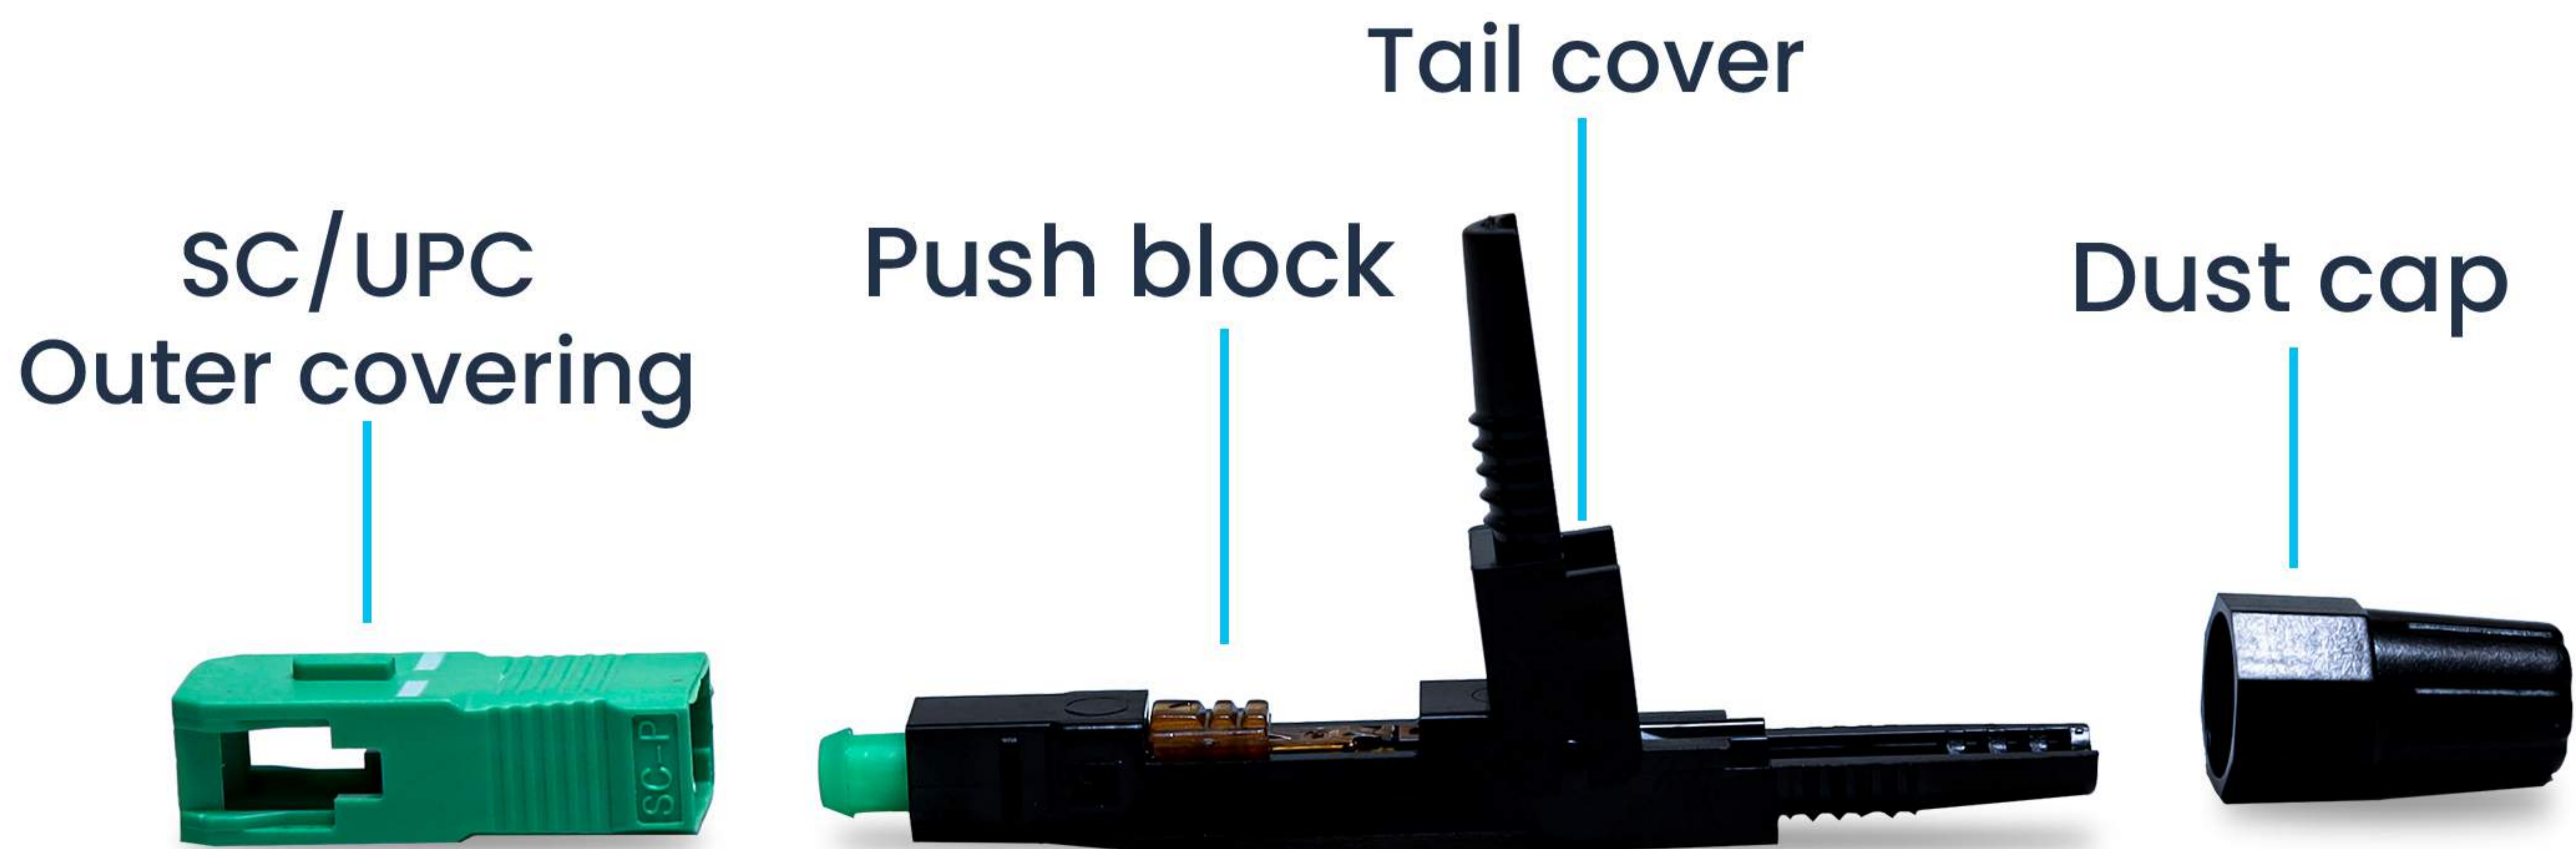

Optical Distribution Frame
